44th Congress of the European Society for Surgical Research

Nîmes - France

May 20 - 23, 2009

Dear Colleagues and ESSR members,

It is a great honour and a real pleasure for us to invite you for the 2009 annual meeting of the European Society for Surgical Research which will be held in Nîmes, France, end of May.

Nîmes is a well known antic roman city located in the south of France, near Montpellier, with its famous Faculty of Medicine, founded in 1180.

Nîmes and Montpellier now share the same “Montpellier-Nîmes” Faculty of Medicine, with 23 public medical research teams, and each city has a large University Hospital.

After work...at walking distance from the Congress center (Atria), Nîmes offers wonderful antic roman monuments (Square House, Arenas) and marvelous gardens. Walking during the evening in the small streets of the old city procure also ravishment, especially in this season. Restaurants propose delicious specialties of Mediterranean food with an interesting assortment of local wines.

Within a few kilometers range, the Languedoc region greets you with the splendid and unique “Pont du Gard” (roman aqueduct), the Cevennes mountains, the marvelous and typical Camargue, the middle-age city of Aigues Mortes, opened on the Mediterranean Sea...

So, “Welcome in Nîmes - May 2009 - for the 44th ESSR Congress”

Roland G. Demaria, MD, PhD, FETCS
ESSR 2009 Congress President

and the Organizing Committee
